

PREFACE

There is a wide difference between theory and practical. If one has only theoretical background of any subject, one would not success in own aim. Therefore, it is necessary for any person to have adequate practical knowledge of the concerned subject. As we know , BCA 5th is a source based on “Computer Application” and it is totally practical field. With only theoretical knowledge, one cannot be succeed or one cannot be on the peak position.

The course, B.C.A designed by the Bhakta kavi Narsinh Mehta University, it has taken full care of this thing and designed the course in such a manner with which student can get theoretical and practical, both type of knowledge perfectly. According to the rules & regulation of “Bhakta kavi Narsinh Mehta University” in the course of B.C.A in 5Th semester, we have create software of any industry or other company.

In this project, we have covered all the information, which are required for the project.
